SIMI Game

Instruction Guide

1. Players will take turn to draw a card from the card pile.
2. The player will spin the bottle and whoever the bottle points to will be the partner for the round.
3. The player will start by flipping the 30 second sand timer.
4. The partner would have to think and act out the answer to the question based on his or her understanding of one family member. The player would have to guess the answer within 30 seconds.
5. If the answer is correct, both the player and the partner score a point each. The player with the highest score at the end of the game wins.
6. The partner can also share a short story with the group based on his or her answer.
7. There are special cards in the deck that would require both the player and the partner to perform tasks together. Upon completion, 1 point would be awarded to each of them.
